RedSeal

By Law Consultancy Services Ltd.

Client Records and Document Management System

RedSeal: bespoke, cloud-based, especially for notaries.

User Guide

This multi-user instruct-your-notary-online, system is easy to use and it makes you look good.

RedSeal saves you a lot of time and typing
completes your Client Registration Form online

Repeat clients? No repeat typing!

Attach documents to individual matters – keeping everything nicely together
in **RedShed** - your own **personal, secure cloud space** –
not just a "folder" for RedSeal files!

so

when a client says can I have a copy of the document you signed for me last week, you can easily oblige.
